

## **LOS RIOS COMMUNITY COLLEGE DISTRICT CONTRIBUTION FOR RETIREES**

Contributions, effective July 1, 2017, of up to **\$280** per month shall be made toward the premium cost of medical insurance for the **retiree only** who meets the [eligibility criteria](#) of their bargaining agreement. **Spouses of retirees are not eligible for a District contribution**, but they may be covered under the retiree's plan.

The District contribution may be applied to a Los Rios sponsored *medical* plan or a *medical* plan outside the District. If a retiree is incurring a cost for medical insurance which is less than \$280 per month, the District will also consider the retiree's cost for Medicare Parts A, B & D in computing the appropriate District contribution. However, the District contribution cannot exceed the retiree's actual cost for medical insurance (including Medicare Parts A, B and D).

If the retiree elects coverage other than a District plan, the retiree will receive an annual request to provide the District with verification of insurance cost. This must be provided for the District to continue the contribution. This includes verification of Medicare premiums and supplemental insurance. If proof is not received by the deadline date, the District contribution will be stopped. Once proof is received the District contribution will be reactivated prospectively.

There is no contribution toward the cost of dental insurance.

All monetary transactions relating to retiree health care benefits and the District contribution will be made via electronic transfer, utilizing the retiree's selected financial institution.
