This clarification consists of one (1) page:

*All VFDs (New and Existing) must be wired per the Districts standards and the following points must be integrated into the Districts BAS:*

- a. HOA Alarm*
- b. Enable*
- c. Speed Control*
- d. Status*
- e. Alarm*
- f. Speed Feedback*
- g. Interlock with Fire Alarm System*

*New/additional controls system sensors are NOT part of this scope. If the Sequence of Operations for the VFDs requires installation of new additional sensors – those devices will be addressed outside of this project (e.g. pressure sensors).*

*M0.02 will not be revised; however this shall document the extent of the controls scope of work.*
